SayflinTM Roofer's System

Horizontal Lifeline Fall Protection System

Easy Installation This system installs in minutes with no special tools or equipment. Simply nail the roof anchors onto the roof and connect the Sayflin system. With the built-in tensioner, tension the rope and it's ready for use.

Easy to Use Hook-up your lifeline and rope adjuster with shock absorbing lanyard and your ready. Move the rope adjuster up and down the lifeline for vertical mobility and pull the entire lifeline along the Sayflin system for horizontal mobility.

Easy to Remove, Relocate, Handle and Store Simply untension and unhook the Sayflin system and pry the nails out of the roof anchors with a hammer. All components are reusable and ready for relocation or storage.

Versatile & Economical The Sayflin Roofer's System will adjust to fit virtually all roofs, eliminating the need for numerous systems. With a built-in tensioner, you can shrink down the system for compact areas or expand for larger ones.
