I. Product Information

- A. Retain this manual for future reference.
- B. This product should be used by trained employees only and should not be installed in an area accessible to the general public.

NOTICE This product is a fall protection product. The effectiveness of the product is directly related to the proper installation and operation of this product. Failure to properly maintain this product **will** affect performance.

NOTICE Unauthorized modification of or to the Product voids this Limited Warranty. Authorized modifications, received in writing from PS Industries® Incorporated, as long as the modification is accomplished in strict accordance with PS Industries' instructions, does not void warranty. If this product is modified or altered without manufacturer's permission, manufacturer is no longer responsible for the product design, engineering, or performance and owner assumes all responsibility. To request product modifications contact PS Industries Incorporated, 1150 S. 48th Street, Grand Forks, ND 58201, phone 877-446-1519, email: 4psinfo@psindustries.com

II. Safety Precautions

- A. Ensure opening is clear of all obstructions through the entire proposed travel of the Ladder Safety Gate during operation.
- B. Comply with all OSHA and ANSI Safety Regulations and/or company safety policies when installing.

IMPORTANT! Due to variances in field conditions, it is the responsibility of the installer to ensure that the product is installed to a mounting surface that is capable of supporting all imposed loading from the product. The installer is responsible for ensuring that the field configured mounting arrangement is capable of supporting all field loads and meets applicable codes and regulations.

▲ CAUTION For products that are approved for use as a means of fall protection, the product only serves as a means of fall protection when the product is in the closed position.

▲ WARNING Do NOT force components if they do not operate freely.

▲ DANGER Ensure area below installation is blocked off from personnel during installation.

Standard Square or Round Installation

STEP 1. Hang Hinge Plate, with a clearance of $\frac{3}{8}$ " to floor.

- a. Install Hinge Brackets at 90° to the gate opening.

STEP 3. Apply Bumper.

STEP 5. Follow LSG Quick Start Guide for installation of Top Gate.

STEP 6. Connect Top and Bottom Gates with two (2) Hoop Tie Plates.

STEP 2. Install Hoop and Toe Board Hinge Plate.

CRITICAL End of gate tube must be installed within "HOOP ADJ. RANGE".

STEP 4. Install Toe Board Hoop Plate.

STEP 7. Follow LSG Quick Start Guide for remainder of installation.
